REAL TIME BOOKKEEPING ANNOUNCES V3.0 RELEASE

SAN DIEGO, CA, SEPTEMBER 22, 2009: The highly anticipated e-Dashboard v3.0 is slated for release September 28, 2009. Developed by Robert Chandler, Founder and CEO of Real Time Bookkeeping, the technology is an industry leader for online bookkeeping solutions. RTB offers accountants a multi-level Solution that allows for Anytime, Anywhere access to clients QuickBooks files as well as a full document management and storage system. RTB provides accounting firms with a virtual office, SAS70 security, hosted accounting environments, professional marketing program, remote back office services and a proven turnkey training solution.

Recognized as one of "The Top 40 under 40" by *The CPA Technology Advisor Magazine* two consecutive years, Robert Chandler is on the forefront of developing business solutions in the technology age. The New e-Dashboard v3.0 includes the following upgrades:

- New Design, Look and Feel for Ease of Use
- 3rd Party Application Hosting
- Shortcuts to Folders and Documents
- Payroll Software Shortcut Compatibility
- New Inbox with Notification of New Documents
- Microsoft Office 2007 Word and Excel
- Additional Private Labeling Features
- One click View for Word, Excel, QuickBooks, Tasks Pending, and Tasks Completed
- 6 New Color themes to choose from
- Expanded Server Base Farm
- Workflow Improvement
- Hosting of Tax Software Compatibility

Real Time Bookkeeping provides an array of products and services geared towards the accounting professional. For more information on the e-Dashboard technology or RTB solutions, please contact Kacee Johnson at (888) 869-0076 or visit www.realtimebookkeeping.com -End-
