

Success Stories

Behind The Screen Accounting

Behind the Screen Accounting™ is an ideal solution for business owners looking for accurate, timely financial information without the challenge of hiring and managing an accounting staff. It is also ideal to augment the existing in house staff.

Tailoring each solution to the client's specific needs. Fees can be structured on an hourly or fixed rate basis. Every engagement is carefully managed by a CPA with the client's business in mind.

Behind the Screen Accounting™ allows the client and CPA to share accounting functions. The client may wish to do their invoicing and customer management, while the CPA takes care of bill paying, reconciling and financial reporting. Every engagement is custom tailored to the client's needs.

Rick Armstrong, CPA
Founder & Principal
